

Support & Services

Technical Support

Our strong sales and highly qualified Service engineer's Team have real time experience and thorough product knowledge who can give technical support for all our products via phone/fax or email

On-Site Service

The life cycle of any technical product begins with installation, commissioning and continues with servicing and maintenance. Team Nandini has expertise in catering On-Site service for all the phases of the life cycle. This may include installation, commissioning, servicing, repair or replacement of parts.

In-House Repair

We take immense pleasure in sharing this great news that 'Nandini Enterprises' is now an "Authorized Service Center" for Yaskawa, Variable Frequency Drives. Our highly motivated team of professionals has experience in repairing machinery and equipments and has also undergone Yaskawa Training Program about the latest technology and automation systems.

Spare Parts

We work exclusively with original YASKAWA parts and ensure availability of spare parts in our repair center located at Hyderabad which enable us to keep repair times short minimizing costly downtime.

Engineering Service

We offer Electrical & Instrumentation services, especially for Detail Engineering & Commissioning / Supervision of projects globally. We have expertise to deliver services in systems like HV/MV, Power & Distribution, Fire Detection, Alarm & Separation, Lighting, Earthing & Lightning Protection, Field Instrumentation, BMS, Security Systems, PLC/DCS/SCADA safety systems.

Training

Our Engineers can give training on Drives and our other products as per your need on your location.

Manufacturing Unit

We take pride in introducing ourselves as one of the leading Electrical Panel Builders with 'CPRI Certification', Industrial Electrification and "A" Grade Electrical Contractors, based in Hyderabad.

Main LT Power Control Centre Panels (PCC)

- Current Rating Upto 6300A
- Single / Multi tier ACB System
- Single / Double front
- Double / Two tier Bus Bar System
- Interlocking with PLC for Multi Incomers
- LT Bus ducts upto 8000A Rating Indoor / Out Door Applications

Motor Control Centre Panels (MCC)

- Draw out / Non Draw out type Construction
- Single / Double front
- DDL / S&D Feeders wired suitable for PLC Remote Operation

Control Relay Panels

- PLC Panels
- Automatic Mains Failure Panels (AMF)
- Automatic Power Factor Control (APFC) Panels.
- Control Desks / Special Purpose Panels
- Power & Lighting Distribution Boards

About Us

We are the group of Intellectuals and Professional operating as a Team under one roof, by the name "Nandini North India Private Limited", established in 2022, a sister Concern of "Nandini Enterprises", the company which was established in the year 2006 and is forging ahead with innovative measures in order to cater to every need pertaining to Electrical, Instrumentation, Automation & Robotics Sectors. As an ISO 9001:2008 and CPRI Certified Company, our organization has been the most RELIABLE source for general purpose instruments and sophisticated automation systems for many Corporate Giants such as Yaskawa, Yokogawa, Baumer, Honeywell, ABB, CG & Siemens who are progressing the Infra and thus the economy of India, echoing its development throughout the world.

Business follows Excellence!

Bringing Excellence in Business relationships and values, our company stands out to be the perfect blend of 'Impeccable Team of Human Resource' and 'Strong Technical Stream of the state-of-the-art Innovative Equipments', continuously striving to produce Excellence that overtake the estimations and expectations of our esteemed clientele.

Right from the Design, Manufacturing, Erection, Installation and Commissioning, we take pride in disclosing our capabilities to render customised services in every related sector such as Hardware, Software and Firmware.

We have been on the path of transforming our Company as one of the most Powerful and Trusted sources for all Instrumentation, Automation, Electrical & Robotics solutions.

We provide complete solution in Cement Industries, Sugar Industries, Indian Railways, Pulp & Paper Industries, Water Industries, Water Waste Industries, Pharm Industries, Power Sector, Oil & Gas Industries, etc.... We deal in Fire & Gas Sector, CCTV complete package, HVAC Systems etc....

We extend our warm Welcome to you to experience the Edge of Changing Future!

Mission

To provide advance, reliable electrical, instrumentation and control products to our customers with price, performance and service to meet and exceed their expectations.
